SIA Approved Contractor

Members of staff

Welcome to the June 2009 edition of the All Security newsletter. We are delighted to announce that we have been successful in retaining our BSI Accredited Company status and also our SIA approved contractor status. This is verification from the BSI Management Systems that our company, during a visit by BSI auditors complied with the requirements of ISO 9001:2008 for the following scope BS 7499, BS7984 and BS7858. This covers us for static guarding, mobile patrols and key holding services.

Management will like to take the opportunity to thank staff for their effort in maintaining the standards required achieving these accreditations and furthermore we will reiterate staff are the first point of contact for most of our customers so it is highly essential that we maintain a level of appearance that reflects the service we provide. Clean uniforms enhanced by the official ALL Security tie and Badge and Visible All Security identity card supported by the SIA licence card.

Staff are encouraged to apply for their licence renewal as soon as you receive notification from the SIA. Please do not leave it late or until your current licence expires, currently we can issue you a special dispensation for 8 weeks and after that period you will have to cease working if your new licence has not been issued. We are aware that the turn around time on licence renewals far exceeds the 8 week period.

Marilyn Phillips says having achieved Approved Contractor status with the SIA we look forward to maintaining the levels and standards.

Company News

SIA Standards for Screening have changed.

Most of you are aware that Richard Phillips who worked in control for 5 years decided to leave and rejoin his family in Ghana we all wish him all the best in his future endeavours. We have a new team member in Alan Holden and he has settled in nicely with the team.

We are currently in the process of installing the latest innovation in guard patrol and clocking time management. It is called Near Field Communication or NFC for short, this will enable us to monitor patrols in real time as they happen and it will also ensure and further enhance staff welfare.

News from Human Resources

Staff welfare is of utmost importance to us and to that end we implore you to remember to use your holiday entitlement and get some rest time. Any employee still seeking a stakeholder pension should register their interest with the office and we will arrange for a pension specialist to talk to you
